

Correction to “Magnetic potential and magnetization contrasts of Earth’s lithosphere” by J. Arkani-Hamed and J. Dyment

In the paper “Magnetic potential and magnetization contrasts of Earth’s lithosphere” by J. Arkani-Hamed and J. Dyment (*Journal of Geophysical Research*, 101(B5), 11,401-11,425, 1996), there are typographical errors in the last parentheses of equations (18a) and (18b). Their correct forms are

$$(\gamma_{nm}\sigma_{n+1,m}^e - \delta_{nm}\sigma_{n-1,m}^e) \quad (1)$$

$$(\gamma_{nm}\sigma_{n+1,m}^o - \delta_{nm}\sigma_{n-1,m}^o) \quad (2)$$

The term δ_{nm} was typed γ_{nm} by mistake. Definitions of γ_{nm} and δ_{nm} are given in equations (19a) and (19b) of the paper.
